St. Matthew's Church.
The Easter services at St. Matthew's
P. E. church were attended by large
congregations. The first service was at
6:30 a. m., morning prayer, and evening
prayer was held at 7:30 a. m. as it was at
the other services of the day. The two
anthems, "The Resurrection," and "As
it Began to Dawn," were especially well
rendered. Holy communion followed
at 7:30 o'clock, and the second holy com-
munion services began at 10:30 o'clock.
At the latter, the largest congregation
of the day was present.

Rev. Dr. Swope's sermon was one ap-
propriate to the day, referring to the
continuity of life; that this life is only
a part of the continuous life of man
throughout eternity. He spoke also of
Dr. Addison, who died last Friday at
Washington City. He was rector of
St. Matthew's church in Wheeling from
1861 to 1887, and it was largely through
his able efforts that the church was
placed upon a firm footing. The mu-
sic at this service was very fine. The
vested choir sang unusually well.

The day's musical programme was as
follows:

Zion's Lutheran Church.
At Zion's German Lutheran church,
South Side, the principal service of the
day was in the morning. The Easter lit-
urgy was followed by the able dis-
course of Rev. Mr. Hoh, the pastor, on
"The Resurrection of Christ, the Fun-
damental note of all the Christian East-
ern Preaching." The choir, under the
leadership of the director, Prof. Henry
Arbenz, rendered an appropriate Easter

First Presbyterian.
The congregations at the First Pres-
byterian church were large at both the
morning and evening services. Rev.
Dr. Cunningham preached in the morn-
ing on a topic in keeping with the spirit
of the day, and in the evening he took
for his subject the ascension of Christ.
Both efforts were thoughtful and in-
structive productions. The special
music for the occasion was rendered
in the morning, and in the evening a
portion of it was repeated. The pro-
gramme was composed of the following
numbers:

The choir was under the direction of
Prof. J. M. Hammond, and was com-

CHRIST'S RESURRECTION.
A Thoughtful and Able Discourse by the
Dr. Brittingham.
At the morning service, at St. Luke's
P. E. church, on the island, the text
of the doctor, Rev. Dr. Brittingham,
was "You Would see Jesus." St.
John, 13-17. Taking the incident of the
Greeks seeking knowledge of Jesus, he
represented them as an inquisitive peo-
ple. It was natural that they should
desire to see Jesus, who was doing and
speaking as no one before Him. What
has assured the minds of the world that
Jesus actually did exist and came again
to life? asked Dr. Brittingham.

First, that He has solved problems
that no one else has solved. Higher life
comes by way of the death of lower
things. By loss there is gain. Second-
ly, you would see Jesus because He
tells of a future life. Then, again, and
most important, we would see Jesus
because He conquered his grave and
will conquer ours if we believe. The
assurance of the latter hangs on the
proof of the former. Hence, our faith
hangs on the Resurrection. There are
many proofs in books and manuscripts,
but we are a busy people and some of
us have not the time to investigate
along that route. There is a quicker
and a better way-in Christianity it-
self. What is Christianity but a proof
of the Resurrection? Those who were
nearest to Him tell us of it in no un-
certain tones. Are these stories cred-
ible? They might not be so, if they
stood alone. But the alleged Resurrec-
tion of Jesus Christ is accompanied by
the indisputable Resurrection of
Christianity. The incontestable proof
is not alone in what they said, but in
what they did and became after this
alleged event. In the transformation of
these men themselves. They became
courageous, hopeful, believing and
wise, possessed of noble and reasonable
views of the world's future, and equip-
ped with resources sufficient to found
the church, convert the world and es-
tablish Christianity in its purity among
men. Christianity cannot be accounted
for unless we believe the account of the
Resurrection of Christ.

At St. Joseph's Cathedral.
The services at St. Joseph's Cathedral,
as usual with Easter, were very im-
pressive. Unusual interest was added
to the character of the worship by the
orchestra formed of a number of the
Opera House organization, which be-
sides aiding the choir in its selection
and rendered sacred selections during
the services of the day. The features of
the musical programme was the rendering
of Haydn's mass in C by the choir with
organ and orchestra accompaniment.

The choir, which is under the direc-
tion of Mrs. M. E. Whitaker, acquitted
itself in a very acceptable manner. The
gem of the day was the singing of Han-
dels' Veni Creator by Mrs. Whitaker
during the morning hours. The church
was thronged at every service, the
masses being celebrated by Bishop
Donahue and the clergymen connected
with the cathedral. The orchestra was
made up of the following well-known
musicians:
Prof. Dr. W. Spell and Barnhold, first
violin; Dave Vaas, second violin; Louis
Feinler, violin; Fred Meyer, cello; J. H.
Hose, H. Vaas, cornets; H. B. Grimm
and H. E. Yeager, clarinetists; L.
Huseman, trombone, and W. H. Pauli,
timpani.

The personnel of the choir follows:
Soprano-Misses Emma Yahn, Emma
Connell, Agnes Hees, A. Deviller, Mar-
garet O'Kane, Rose Fischer, Rose Hoff-
man, Margaret Byrne, Etta Wetzel.
Altos-Misses Augusta Hammond, Agnes
Lowrie, Kate Gathers, Ella Waterhouse,

Arkle.

Church of Immaculate Conception.
Elsewhere the fine music rendered by
the choir of the church of the Imma-
culate Conception is mentioned. Solos
were rendered by Messrs. McCormick
and Driller, Mrs. Reuter and Messrs.
William Miller and John Brady. The full
choir is composed of the following
voices:

ma Driller, Mary Heesche, Anna Mon-

Young Men's Christian Association.
The men's meeting at the Young
Men's Christian Association yesterday
afternoon was very interesting. The
opening exercises were in keeping with
the day, and an entertaining talk was
given by an Armenian on the subject,
"But Now is Christ Risen." The
speaker was John Karagiosian, of
Marash, Cilicia, who escaped from Tur-
key about two years ago. He speaks
the English language fluently, and il-
lustrated his talk from his own experi-
ences.

NEW INDUSTRY.

A Photographic Camera Manufac-
tury to be Started Soon.

THE FAMOUS BULLARD CAMERA

Which is Said to be the Finest Magazine
Camera Ever Invented to be Made Here
in Wheeling by the Bullard Camera
Company-An Industry that Bids Fair
to Become Quite an Extensive Estab-
lishment-Description of the New In-
strument.

The manufacture of magazine or
"detective" cameras for the great army
of American amateur photographers
has become an industry of not general-
ly known magnitude in late years. An
idea of its magnitude can be gathered
when the order placed by a western
supply house recently is mentioned-an
order for 50,000 cameras.

It is not generally known, also, that
right here in Wheeling has been inven-
ted what all the experts declare to be the
only perfect magazine camera, one
that leaves nothing to be desired. Sev-
eral years ago Mr. E. R. Bullard per-
fected a hand camera and had a few
made for his friends, but did not place
them on the market. It was a good in-
strument and would have had a big sale
if it had been manufactured. Since
that time Mr. Bullard has been at work
on a camera of the "detective" or mag-
azine variety, and within the past six
months has perfected it in every de-
tail and had models made. These were
recently shown to eastern manufactur-
ers and all united in declaring that it
was the only magazine "box" that left
nothing to be desired. Mr. Bullard had
a number of offers to dispose of his pa-
tent rights, but determined recently to
make the camera here in Wheeling.

Company with ample capital. Within
the past few weeks he has brought
camera workmen here from the east
and is now fitting up the upper floors of
his building on Twelfth street, where
the camera will be made. The first
camera will be turned out early in the
summer. As the demand increases, the
factory will be enlarged.

An Intelligencer man was favored
with an inspection of the new camera,
which is indeed a marvelous instru-
ment. Heretofore magazine cameras
have been complicated in construction
and unreliable in actual service. The
new camera is simplicity itself and
can't get out of order. It is built to
carry eighteen to twenty-four plates,
which are placed in position, one after
another, by the simple pulling out and
return of an inner section. The plate
revolves on a grooved way which is the
valuable feature of the invention.

The officials at the patent office in
Washington are crabbied, more so
of people who seldom enthruse, but the
examiner who acted on the Bullard
patent grew enthusiastic and said he
wanted one of the new cameras when
placed on the market. This was indeed
a compliment.

In addition to making the new cam-
eras in several sizes, the Bullard cam-
eras will make other cameras, plate-
holders of a new and improved pattern
and other photographic supplies.

REPUBLICAN NATIONAL COMMITTEE.

West Virginia's Member Talks-The
Business of that Body.

Hon. N. B. Scott, West Virginia's
member of the Republican national
committee, was asked by an intelli-
gent reporter whether he had seen the
interview in which Mr. Clarkson, the
committeeman from Iowa, says that
the national committee is against Mc-
Kinley and declares that the committee
feels that it should avoid the "peril" of
nominating the popular choice.
Mr. Scott replied that he had seen
the interview. "I have two things to
say in regard to it. First, I do not
think the national committee is against
the nomination of Governor McKinley.
Secondly, I do not think it the business
of the national committee as such to be
for or against aspirants. As an indi-
vidual I have the same right to my
choice as any other Republican. So
has every other member of the com-
mittee. As a body the national commit-
tee is not expected to control or to try to
control nominations. Its present busi-
ness is to arrange for the convention.
It is the business of the convention to
select the nominees. After that the na-
tional committee conducts the cam-
paign. The committee may be relied
on, I think, to be fair to all aspirants.
Certainly I have no other intention so
far as any act of mine may be con-
cerned."

The Ideal Palaces.

James L. Francis, Alderman, Chica-
go, says: "I regard Dr. King's New
Discovery as a noble Panacea for
Coughs, Colds and Lung Complaints,
having used it in my family for the last
five years, to the exclusion of physi-
cian's prescriptions or other prepara-
tions."
Rev. John Burgess, Keokuk, Iowa,
writes: "I have been a minister of the
Methodist Episcopal church for fifty
years or more, and have never found
anything so beneficial, or that gave me
such speedy relief as Dr. King's New
Discovery. Try this Ideal Cough Rem-
edy now. Trial bottles free at Logan
Drug Co.'s Drug Store."

Mrs. Jenness Miller will lecture at the
U. P. church, Wheeling, Monday af-
ternoon, April 6, for the benefit of the
City Hospital. Subject, "Dress for
Health and Beauty." Admission 50
cents.

THOSE who are troubled with rheu-
matism should try a few applications
of Chamberlain's Pain Balm, rubbing
the parts vigorously at each applica-
tion. If that does not bring relief dam-
pen a piece of flannel with Pain Balm

March

April, May are most emphatically the
months for taking a good blood purifier,
because the system is now most in need
of such a medicine, and because it more
quickly responds to medicinal qualities.
In winter impurities do not pass out of the
body freely, but accumulate in the blood.

April

The best medicine to purify, enrich and
vitalize the blood, and thus give strength
and build up the system, is Hood's Sarsa-
parilla. Thousands take it as their Spring
Medicine, and more are taking it today
than ever before. If you are tired, "out of

sorts," nervous, have bad taste in the
morning, aching or dizzy head, sour
stomach and feel all run down, a course
of Hood's Sarsaparilla will put your whole
body in good order and make you strong
and vigorous. It is the ideal Spring
